-

Professional Experience

Founder & Frontend Developer

Zickternet | October, 2023 - Present

- Developed, launched, and maintained dynamic websites for clients in industries such as fashion, media, and non-profits.

- Built and customized websites to meet client branding and functional needs.
- Implemented WooCommerce solutions for eCommerce stores, optimizing user experience and checkout processes.
- Provided ongoing technical support and maintenance, addressing client issues promptly.
- Improved page load times by 30% by optimizing assets and implementing lazy loading.

Frontend Developer

Insigna Media | August, 2023 - Present

- Designed and maintained the company websites and its subsidiary project, Pickastudio, an Airbnb-like platform for studio bookings.
- Implemented responsive layouts using React.js and Tailwind CSS, ensuring seamless user experience across devices.
- Integrated APIs for real-time booking and payment functionalities.
- Collaborated with the marketing team to align website designs with branding strategies.
- Enhanced web application performance through efficient state management and code splitting.

Web Developer

KeyRetail Group | November, 2024 - Present

- Spearheaded the design and development of modern, responsive websites, enhancing user engagement and functionality.
- Conducted training sessions to teach colleagues web development best practices, empowering them to build and maintain company websites.
- Collaborated with cross-departmental teams to ensure websites aligned with business objectives and branding.
- Optimized website performance and usability, contributing to increased traffic and improved user experience.

Frontend Development Tutor

Techagon | September, 2024

- Taught foundational web development (HTML, CSS, JavaScript, TypeScript) and advanced topics like React.js and hooks to beginners, including kids.
 - Guided students in building projects, such as a to-do list app, to reinforce learning.
 - Simplified complex programming concepts for effective understanding and application.
-
